Reporting officer contacted Mesa County Sheriff's Department, Grand Junction, Colorado and spoke with Investigator Milo Vig. The Mesa County Sheriff's Department had turned up a body of a young female previous to the disappearance of the victim in question. However, the victim in Mesa County was a young girl that had been missing from Wisconsin with some similarities in the two cases.

Investigator Vig informed me that the homicide in their area had come out of Utah, that the victim had been staying in Salt Lake City, Utah and that her disappearance was actually from that state and not Wisconsin. Investigator Vig also informed R.O. the Salt Lake City Police and Sheriff out there have a total of six homicides involving all young females. The method of operation has all been basically the same. Also there is some evidence that they might link into homicides or missing persons of young females on the California, Oregon, Washington Coast. Investigator Vig states that on the 29 of June, last year, that there was a large party in which narcotics and/or dangerous drugs were used. That their victim went to that party with a person by the name of Phillip Quintana, also known as Phillip Martinez. The next morning, the 30th. of June victim was seen by a girlfriend, Joanne Elkins on her way to work. A forklift operator at the place of employment saw victim just before 1000 hrs. At that time their victim stated she was going to see Joanne Elkins and that was the last time she was seen alive. Victim was found two days later in Mesa County in the Debec (sp?) Canyon area. Also at the party and a suspect in the case is a Wade Gambrile. Suspect is known as a drug pusher in the Salt Lake City area. Vig states that a Jerry Thompson, Investigation Divison, Salt Lake City Sheriff's Department, phone 801-328-7491 is in charge of the investigation in the Salt Lake City area and any additional information we might need, we should contact him.

Reporting Officer received information from Investigator Fisher, the D.A.'s office that several persons have been in the mall area on or about the 12, January, 1975 talking about religion, had gone into a sewing shop, acting strangely and scared a young woman that was working there. She states that she thought they were going to take her with them or hold up the shop.

Reporting Officer and Investigator Fisher found that the persons had some connection with the Prince of Peace Chapel, West of Aspen. R.O. and Inv. Fisher contacted a Mrs. Snyder, the genral manager of the chapel. Mrs. Snyder was interviewed 16, January, 1975 at approximately 1830 hrs. Ms. Snyder had knowledge of some young people here from Abilene University, Texas (a Christian College) that were holding rap sessions at the chapel. Inves. Fisher described persons that were in the sewing shop in the mall and Mrs. Snyder thought they were the same people. One being, a Mr. Saunders, who is a minister, very well known, is writing a book, and is a teacher at the college. Mrs. Snyder states that she was contacted by a Jack Hicks of Glenwood Springs, phone number 945-7228 to use the chapel by these people from Abilene Texas Univ. Mrs. Snyder states that she is in attendance at all functions at the chapel and none go unchaperoned. States that she was there herself serving the refreshments and the like and at all the rap sessions and these people seemed to be very orderly and no problems at all with high moral character. Mrs. Snyder's information is that the students were to leave Aspen by bus to return to Abeline Texas University during the day, Saturday 11 January, 1975.

At approx. 0841 hrs. this Officer, while at an office meeting with Sheriff Whitmire, Undersheriff Quick, and Officer Bruce Gordon we were notified by Officer Larry Porter that a Miss Kuhn had just called Pitkin County Sheriff's Office to report that she thought she had seen a body on Owl Creek road in the area of the Sinclair property. Upon receiving this information Sheriff Whitmire in the company of Officer Gordon did proceed to go to the scene in Car 3573, followed by Officer Stan Thomison and myself in Car 3581. Upon our arrival at 0851 hrs. Officer Thomison and this Officer did meet with Sheriff Whitmire and Officer Gordon. This Officer did immediate notice of what appeared to be the nude body of a young female Caucasian approx. 14 feet off the edge of the road on the right side of Owl Creek road heading in a northerly direction. This Officer also took notice that the body had apparently been dragged away from a closer proximity to the road edge by some sort of animals whether domestic or wild unknown, and that these animals may have partially eaten sections of the body. This Officer was then assigned by Sheriff Whitmire to block the road approx. 1/8th of a mile to the south on Owl Creek road. This Officer did respond to that order and in Car 3581 did set up a roadblock in order to better secure the crime scene and so as not to disturb any latent evidence that might be available to our investigators. This Officer secured from the roadblock and crime scene at 11:15 hrs.

Reporting Officer responded to the Wildwood Inn at the request of the Undersheriff at approx. 2200 this date. The purpose of which was to further ascertain all possible routes which may have been employed in the abduction of the deceased from the Wildwood, as well as to try and reconstruct the abduction. R/O did travel over the Owl Creek road to West Village and establish the following times and distances from the area in which the deceased body was discovered and the Wildwood Inn. Time measurements were taken by the R/O using his personal chronometer, a Seiko brand watch with a 30 minute time accumulator and stopwatch, and distance measurements were taken by using the odometer and PCSD Patrol Unit #3581. In taking these measurements R/O used the following reference points:

Point A. Area that the deceased body was discovered on Owl Creek road.

Point B. Intersection of Highland road and Owl Creek roads.

Point C. Intersection of Owl Creek road and Brush Creek roads.

D. Wildwood Inn.

The following are the time measurements:

1. Point A to Point B - 1 minute and 17 seconds at approx. 30 mph.

2. " B to C - 2 mins. 28 seconds @ approx. 30 mph.

3. " C to D - 3 mins. 24 seconds " " 30 mph.

Total time from the Wildwood Inn to the area at which the deceased body was discovered

6 mins. 27 seconds. Distance from Point D to Point C - 1.4 miles. Point C to Point B

1.2 miles. Point B to Point A - 2/10ths of a mile. Total distance between the

Wildwood Inn and the area the deceased body was discovered - 2.8 miles.

Note R/O drove from Point C to Point D via the Brush Creek road, this would be past the Divide Parking Lot turn-off into the Upper West Village. At Wildwood Inn R/O did establish the following times from various locations to and from the room of the deceased, that room being Room #210 located on the second floor, west wing of the Wildwood Inn.

1. From the lobby to Room 210 via the elevator, walking at a medium pace = 1 min. 22

3. From the Powderhorn Card Room to Room 210, Powderhorn Room being located on the first level of the Wildwood, via the stairs past the laundry, also located on the first floor = 48 seconds at a medium pace.

After establishing of these figures, R/O was met at the Wildwood Inn by Undersheriff Quick, at which point R/O and U/S Quick did gain access into the laundry room of the Wildwood and conducted a thorough search of that area. R/O did gain access into second crawlspace located in the Maintenance Room of the laundry area and did not at that point see anything that would connect with the abduction of the deceased. A conversation was held between R/O and U/S Quick and an employee that was present in the laundry room ascertained how often the laundry room was left unlocked, to which the employee replied that it was frequently left unlocked and unattended. R/O and Undersheriff Quick then proceeded from the laundry room and did a general premises survey around the Wildwood, again discovering nothing.

R/O along with the Sheriff, Carrol D. Whitmire contacted the Denver Coroner's office, where the victim's body had been taken. Talked with Ben Galloway and Dr. Clark. Dr. Clark will be doing the autopsy in this case. Dr. Clark determined that the victim's body would have to thaw out before he could perform any type of autopsy. At 1320 hrs. Dr. Clark stated that he would perform the autopsy at 1600 hrs. at Howard Mortuary, 1201 E. 17th. Ave., Denver, also Dr. Ben Galloway would assist. Dr. Galloway then contacted a dentist by the name of Dr. R.H. Mentzer of 2045 Franklin St., Suite 806, Denver, phone 255-2509 to do the dental comparisons with X-Rays obtained by Investigator Fisher from Caryn E. Campbell's dentist in Michigan.

REPORT OF WITNESS OF AUTOPSY

At approximately 1600 hrs. this date, Dr. Richard H. Mentzer, DDS of 2045 Franklin Street, Suite 806, Denver, 255-2509, arrived at Howard Mortuary at 1201 E. 17th. St., Denver to do a dental comparison on the body that was to be later identified as Caryn E. Campbell.

The following is his observations during his examination of the teeth. The left second molar looks to be fractured. This would be on a dental chart no. 18. Dr. Mentzer stated that he doesn't think that a person would have a fractured tooth like that for very long as it would probably be very painful and discomforting to the person. Dr. Mentzer states that it is very possible that the tooth was broken off from a blow to the side of the head or possibly a very hard gritting of the teeth. R/O would assume that this was done during the assault on Ms. Campbell as we have no information that she had any discomfort or anything had happened to her teeth just prior to her disappearance.

At approximately 1700, 18, February, 1975 OR. Clark began the post-mortem on the body.

Dr. Clark found a laceration on the back of the head just to the right side approx. ear level that went through the outer covering of the skull. Just to the left of that a second laceration but it did not quite as deep. Just to the left of the second laceration there was another hole in the scalp found. However it was not determined whether that was from animals or from another blow. Dr. Clark found that the left ear was lacerated, possibly by a sharp object, cutting through the ear in a downward direction. Also the flesh underneath the ear was cut with the same direction as the ear. The wound seemed to be clean and neat as if a sharp object had done it. At this time Dr. Clark removed the scalp from the skull and it was found that below the first laceration found a small bone chip was taken from the skull. At this time Dr. Clark entered the skull and found that there was a fracture just below where the bone chip on the outside of the skull was. The fracture ran to the right side of the Mastoid bone possibly a blow to the right side of the head around

hemorrhage that was seen at the time the body was discovered would have caused the skull fracture. Dr. Clark did not find any hemorrhaging on the brain itself and the brain sack was intact. Also found that the victim's stomach was full with partially digested food. It was the opinion of both Dr. Clark and Dr. Galloway that death had occurred from two to five hours after victim had eaten. Contained in the stomach was meat, red and green peppers, apricots, a leafy material and some kind of stock. Blood and organs of the body were taken for toxicology tests and Dr. Clark will not state time or the cause of death at this time. The only thing he stated there was possibly a combination of blows to the right rear, center rear of the victim's head. Dr. Clark stated that he would send a report as quickly as he got the toxicology done on the body tissues and blood.

Burton states that a Rosemary Tucker had contacted him wanting information about a possible homicide case in Colorado that involved a woman with hair parted in the middle and something about the ears of the victims.
